Personal notes

I trained at UC London and after a variety of SHO posts in and outside London joined the Westminster, UCH and RNOH SR rotation. My fellowship was at the Brigham and Women's Hospital Boston MA in Arthroplasty surgery.

In 1990 I was appointed Consultant at St Mary's and St Charles' Hospital London but moved to Ipswich in 1993 where I have continued to practise predominately lower limb arthroplasty.

I wrote one of the original modules for the STEP course for the Royal College of Surgeons and was a member of the BOA Education Committee and CPD Committee.

I have been Clinical Director for Orthopaedics at Ipswich, Chair of the SAC in Trauma and Orthopaedics and am now President of the British Orthopaedic Association (2008-2009).

Organisations / wider responsibilities

Past

Chairman of the SAC in Orthopaedic
Member of the Council of the BOA
Member – Education Committee of the British Orthopaedic Association

Present

President British Orthopaedic Association
I am a member of BHS and BASK

Published work

Papers with reference to hip and knee replacements.

Essence of practice

My elective practice is now almost entirely devoted to adult lower limb primary and revision arthroplasty. The practice attracts difficult primary problems and tertiary referrals.

Expectations of trainees

I'm looking for trainees who are	I am irritated by trainees who are
Keen to learn and involve themselves with the clinical and organisational aspects of the attachment, and who are prepared to question and discuss my clinical decisions.	Unpunctual ,disorganised and unforthcoming
